FRONTEND DEVELOPER

Looking for a company that I can grow my career with and become a better developer. Proficient in HTML, CSS, JavaScript, and React. Passionately interested in designing and creating efficient modern web apps, whether working on new or existing projects. Native speaker of Spanish and English and currently learning Korean.

EXPERIENCE

Infosys   New York, NY
Software Engineer   12/2020 - Present
- Trained in full-stack development, back-end Java and front-end Angularjs.
- Focused on working on the frontend with the Telemetry team using javascript, flexbox, & D3.js.
- Collaborated with the team for visualizing data using D3, which allowed us to graph data from thousands of organizations.
- Refactored the code base following DRY principles and made sure the frontend was fully responsive.

FreeCodeCamp   New York, NY
Teacher Assistant   08/2015 - 2019
- Managed and increased meetup participation of active members by 15%.
- Mentored members in fundamentals of HTML5, CSS3 and Javascript/ES6+.
- Collaborated with the team to devise ways to promote upcoming events.

TECHNICAL SKILLS

Front End	JavaScript(ES6+),TypeScript, React.js, Vue.js, Figma, Tailwind, BootStrap, HTML5 & CSS3	**Principles & Methodologies**	Agile, SCRUM, OOP, Unit Testing, Responsive Web Design
Back End	REST, Nodejs, & MySQL	**Testing & Other**	Jest, Git, Windows OS, NPM, Balsamiq, & JIRA

TECHNICAL PROJECTS

FaceReg-React - GitHub
A react application that identifies the faces of people in images.
- Utilized tachyons, a supercharged CSS library for React.js, to style and animate the app.
- Implemented Clarifai API, which enables the app to identify faces in the images.
- Created an interactive background using the Particles.js library.

Migben Portfolio site - GitHub
This is a demo portfolio SPA website made with Gatsby.js, React.js & third-party libraries.
- Utilized a Gatsby template as the baseline of this website.
- Applied third-party services/libraries such as Formspree and Cloudinary.
- Created the backend with Strapi to handle images, content, and filtering of the featured posts/projects.
